"I've been working with BR Williams Trucking for almost eight years now. The consistency of freight lanes falls in line with consistent pay and volume of loads to allow our business relationship to not only be steady, but actually grow over that time as well. I look forward to continuing down this road we've built together with their logistics team."- Loyal Logistics Customer

- **Drop trailers**
- **Personalized customer service**
- **Expert logisticians...our logistics team has a combined average of over 100 years of brokerage experience**

WILLIAMS

BR Williams Logistics was established in 2010 as an addition to our in house fleet that was established in 1958. We have all the tools of larger 3PL service providers, plus the customer service passion of a family owned company.

We do not operate with a traditional logistics brokerage business model: Most logistics companies advertise loads to as many carriers as possible and then take the cheapest truck on any given day. We build relationships with like-minded, high-performing contract carriers that fit our clients' needs perfectly.
